

# Technical Investigative Surveillance Equipment (TechOps)

The U.S. Department of Homeland Security (DHS), Office of Procurement Operations (OPO), Enterprise Acquisitions Division (EAD) has awarded nine Indefinite Delivery, Indefinite Quantity (IDIQ) Government-Wide Acquisition Contracts (GWACs) for Technical Investigative Surveillance Equipment (TechOps). The TechOps GWACs are available to Federal law enforcement agencies for use during lawfully authorized criminal investigations. The TechOps GWACs provide a full array of compatible and interoperable technical investigative surveillance equipment, limited services, and annual technical refreshments to meet the covert surveillance objectives of participating Federal agencies. Ancillary services in support of this equipment are also available; however, the principle purpose of these contracts is to obtain equipment.

The technical and investigative equipment and services are limited to the following:

- Covert video equipment with optional audio that includes transmitters, receivers, repeaters and IP Cameras, offering mobile and fixed options and multiple concealment options
- Covert audio equipment that includes transmitters, receivers, and repeaters, offering mobile and fixed options and multiple concealment options, and
- Ancillary services that includes engineering for construction of concealments, training, technical services, and maintenance.

Awards were made to the following companies:
